

Dancker, Sellew & Douglas Now Exclusive Thermo Fisher Scientific Dealer in New York

FOR IMMEDIATE RELEASE

New York City, New York (June 1st, 2009) – Dancker, Sellew & Douglas (DS&D), one of the nation's most successful commercial interior firms, today announced its exclusive distribution of Thermo Fisher Scientific laboratory equipment, casework and airflow products in the state of New York.

"We're extremely proud and excited to be serving the New York marketplace", said Drew Lynch, Director of Laboratory Products Division at DS&D. "Our growing partnership with Thermo Scientific presents the opportunity to expand our offering of quality products and services into new regions. Together, our companies look forward to creating successful laboratory environments which facilitate the discoveries and knowledge of tomorrow."

DS&D celebrated the announcement with an open-house event atop 5 Penn Plaza, showcasing numerous new products from sponsors Thermo Scientific, Erlab, Epoxyn, and WaterSaver Faucets. Present at the event were representatives from many local universities, hospitals and pharmaceutical companies, as well as leading contracting, architecture and design firms.

"This open-house event was an indication of the high level of commitment by DS&D to the New York marketplace", said Jon Zboralski, Director of Airflow and Laboratory Products at Thermo Fisher Scientific. "It was a great opportunity for the industry to get the market drivers together for a common goal. As the exclusive Thermo Scientific dealer in New York, DS&D has the knowledge and capabilities to provide clients with excellent customer support and a broad range of solutions for the scientific workplace."

Headquartered in Two Rivers, Wisconsin, Thermo Fisher Scientific (ThermoFisher.com) is the world leader in serving science, with well over 350,000 customers within pharmaceutical and biotech companies, hospitals and clinical diagnostic labs, universities, research institutions and government agencies, as well as environmental and industrial process control settings. Thermo Scientific offers customers a complete range of high-end analytical instruments as well as laboratory equipment and integrated laboratory workflow solutions.

Founded in 1829, DS&D is widely considered one of the nation's leading providers of innovative furniture and interior solutions, laboratory equipment as well as expert design and installation services to the architectural, commercial office, education, healthcare and laboratory marketplaces. The DS&D customer base stretches from New Jersey through much of the Mid-Atlantic States.

As a result of becoming the exclusive dealer of Thermo Scientific products in New York, customers can expect benefits that will include:

- A local, single-source provider of Thermo Scientific laboratory products and all related design, specification, estimating, project management and installation services.
- Even faster turn-around of customer product requests based on the expanded use of DS&D's 250,000 sq. ft. on-site storage facility and state-of-the-art online inventory management system
- Improved savings based on DS&D's buying power and resources.
- An unrivalled attention to detail and customer service excellence that spans 180 years.
