Logistical Services

Details Matter.

With an average of 15+ years of industry experience, our team has an unparalleled ability to deal with the most complex logistics, no matter the size or scale of the project.

A HIGHLY SKILLED TEAM

Our Operations team members are prepared to tackle any job because they're:

- Knowledgeable in all systems manufacturers
- Steelcase LEED Installer Trained
- OSHA 30 certified
- Equipped with smartphones to photograph and share punchlist items and service issues quickly
- Active participants in monthly safety training classes

DELIVERY AND INSTALLATION

Our certified installation team provides the expertise to install newly purchased products or reallocate existing assets to meet the needs of a new environment or changing business condition.

ASSET & INVENTORY MANAGEMENT

Our proprietary inventory management program helps you prolong the life of existing assets and reduce purchasing redundancy. You'll also optimize the productivity and efficiency of your real estate by reducing unused assets and reclaiming storage spaces.

HEALTHCARE LOGISTICS

dancker's 24/7 responsiveness ensures your healthcare organization has the necessary equipment at a moment's notice. We simplify the complexity of healthcare logistics so you can prioritize the highest level of care for your patients.

Operational Resources

We self-perform delivery and installation with our in-house operations resources.
